

Small Business Saturday is the day that hometown businesses show the public why shopping local makes sense. Friendly service, convenient proximity, and unique options translate to sales in the frenzied rush of holiday shopping.

CleanSpace Carpet Cleaning: Hometown service and care

David Wood, right, and his son, Tim, operate CleanSpace Carpet Cleaning in Delano.

Whether you're doing fall cleaning, getting ready for company, or just need to freshen up your carpet, CleanSpace is your local carpet cleaning professional.

CleanSpace Carpet Cleaning offers local, friendly experts in residue-free carpet and upholstery cleaning, and the process they use is safe for kids and pets.

The father-and-son team of David and Tim Wood has more than 35 years of combined experience in floor cleaning in Delano and surrounding communities.

David has been an influential force in the floor-cleaning industry for more than 25 years. He has many patented inventions for floor-cleaning equipment, including a revolutionary carpet-cleaning wand that is now being used by thousands of other professional carpet cleaners worldwide.

Trained as a mechanical engineer, he has designed street sweepers; vacuum cleaners; floor buffers; commercial floor scrubbers; and, of course, carpet cleaners. Having designed and developed scores of innovative cleaning machines and methods, he understands the science behind cleaning carpet and floors, and he can see through the marketing gimmicks employed by some other companies.

Tim Wood is the CleanSpace

methods expert. He is the smiling face you will see at your door on cleaning day. Before joining CleanSpace full-time, Tim worked as a test lab technician, testing and evaluating every kind of floor-cleaning machine you can imagine. He graduated with a degree in business sales and management and is certified in professional carpet spot and odor removal.

Tim has this tip to help keep your carpet clean longer: "Keep your kitchen floor clean even if it is not carpeted. Cooking oils are easily tracked onto carpet and will attract dirt."

CleanSpace can deep-clean your hard floors, too.

CleanSpace is known for its friendly, thorough, hardworking service with careful attention to detail. Their hot-water extraction carpet cleaning process is residue-free, and drying time is fast. They use Green Seal Certified cleaning agents, and practice environmentally-responsible, sustainable cleaning methods. The company's state-of-the-art equipment and methods are laboratory-tested to make sure they are the best in the industry.

An enthusiastic Delano customer had this to say about CleanSpace: "Since purchasing our new home 10 years ago, we've had our carpets professionally cleaned three times by three separate cleaning companies, most recently by CleanSpace.

We were so pleased with the pro-

fessionalism and outcome with CleanSpace. They have earned a customer for life! CleanSpace did an outstanding job cleaning all our carpets and treating stains. They saved us thousands of dollars in carpet replacement. . . we were planning on replacing our carpet, but we no longer need to! CleanSpace is by far the best carpet cleaning service we have used, and we highly recommend you give them a try!"

CleanSpace services include: carpet and upholstery cleaning, stain protection, rug cleaning, deodorization, pet stain and odor treatment, hardwood floor cleaning and polishing, tile re-finishing, as well as commercial floor care for businesses and institutions.

The CleanSpace mission is to provide top quality, high value cleaning and restoration services to homes and businesses, satisfaction guaranteed. When you are ready to give your carpets, hardwood or tile floors a new lease on life, look with confidence to the professionals at CleanSpace in Delano, where the expertise is world-class and the personal service is second to none.

CleanSpace Carpet Cleaning - Professional, friendly, local service you can trust. Residue-free, pet/kid safe, no hidden costs. Call Dave at (763) 227-8898 or email dave@cleanspacemn.com.
